

You Deserve *Healthy & Beautiful* Legs

Welcome to Atrium Laser Vein Center

With over five thousand patients treated, Atrium Laser Vein Center has one of the largest experiences in the United States in the treatment of varicose and spider veins.

Our philosophy is to help patients achieve healthy and beautiful legs. We do procedures at our vein center under local anesthesia with minimal downtime.

With our years of experience we are able to minimize complications related to vein procedures. We perform laser treatments and closure procedures which are highly successful in the treatment of varicose and spider veins.

All of our doctors are board certified in vascular surgery and have had specialized training in minimally invasive vein procedures.

Dr. Arun Goyal, MD, FACS, RVT

Dr. Pravin Shah, MD, FACS, RVT

Dr. Igor Laskowski, MD, PhD, FACS, RVT
